

Project 27

The European Federalists Movement in the European Parliament - namely the multipartisan Spinelli Group - commits itself to the objective of a treaty reform of the 27 EU Member States by the year 2027:

- Establishing of a European convention as foreseen in Article 48 of the Treaty of the European Union
- Reshaping and reducing the unanimity principle to make stronger and quicker decisions possible and probable
- Bringing the European security infrastructure to a new level complementary to NATO
- Strengthening the economy via better regulation, strategic investments, more education, a spirit of innovation, a stronger workforce by tackling the demographic winter
- Perpetuate the support for Ukraine and other parts of Europe directly militarily attacked; also via immensely involving EU-actors in the Ukraine reconstruction plans
- Developing European democracy structures
- Enlargement: Making the European Union ready for future accessions.

We will serve as partners of those in the Member States and the EU-institutions who constructively thrive for a treaty reform in the spirit mentioned above.
